

# Charandeep Kapoor

AI Product Manager & Engineer

India charandeepkapoor3@gmail.com charandeepkapoor.com LinkedIn GitHub Twitter

AI Product Manager at Delta Exchange, India's largest crypto derivatives exchange, where I own the LLM surface across trading, signals and research. I build the systems as well as the roadmap: Claude-driven agents that place real orders, size real risk, and carry a year of verified P&L behind them.

## Selected systems

**Drishti** drishti-beryl.vercel.app

Live LLM signal system on Delta crypto perpetuals. Claude runs a 15-minute, regime-aware cycle across 8 markets; an executor places reduce-only stop and limit orders behind a daily loss breaker.

**Stocky** web.sensibull.com

Fine-tuned Claude on a custom Zerodha MCP and let it trade Indian F&O for a year. ₹15L to ₹31.57L, +110%, Sharpe 2.29, 73% win rate. verified

## Experience

**Delta Exchange** · AI Product Manager Apr 2026 – Present

Own the AI and LLM surface across the trading, signals and research stack. Product for perpetual futures and options, covering design, growth and quant tooling.

**Timelock Trade** · Founder Apr 2025 – Apr 2026

Bootstrapped a decentralized house of finance, perps and options through prediction and binary markets, oracle-less and liquidation-free by design. \$7.3M trading volume, \$2M TVL, 1,000+ users on Monad testnet (perps.timelock.trade). Led 6 people across engineering, product, design, business development and marketing.

**Diffusion Labs** · Product Manager Dec 2023 – Apr 2025

0-to-1 lead for DeFi protocols, from prediction markets to liquidation-free lending. Scaled Methlab to 20,000+ users and \$50M TVL in 6 months, directing a 15-person team. Launched Puff, a positive-EV prediction marketplace. \$75M market cap, \$2.5M ARR.

**Delta Exchange** · Product & Growth Jun 2023 – Jul 2024

Ran live algos on BTC and ETH. ATM short straddles returned 2,860% in a year; a refined MACD returned 100% over two. Led education and socials, growing YouTube from 3K to 25K subscribers in six months.

**Stader Labs** · Analyst Mar 2023 – Nov 2023

On-chain analytics and treasury optimization for multi-chain staking.

**Heru Finance** · Trader & Investment Analyst May 2022 – Feb 2023

Ran a \$500K fund targeting 30%+ delta-neutral yields; hedged over \$5M of portfolio exposure.

**Tykhe Block Ventures** · VC Analyst Mar 2022 – Nov 2023

Technical due diligence on DeFi protocols; advised NFTPerp on derivative pricing.

## SKILLS

### AI & LLM

Agentic AI, multi-step tool-calling · LLM systems in production (Claude) · Prompt & context engineering · MCP, RAG, cost-aware routing

### Markets

Perpetual futures & options · Options pricing (Black-Scholes) · Risk management

### Build

TypeScript / Next.js · Python · Solidity

### Product

0-to-1 delivery · Team leadership

## EDUCATION & HONOURS

B.Tech, IIT Kanpur  
2018 – 2022

JEE Advanced 2018  
AIR 638 (99.96%ile)

JEE Main 2018  
AIR 272 (99.98%ile)

CAT 2023  
99.85%ile

National Maths Olympiad  
AIR 3
